Our employees' extensions and email addresses remain unchanged. Previous telephone numbers will remain available for a transition period.

VAT ID: DE813720663
New tax number: 78091/18906

ART GmbH Anlagenbau Reinraum Technik has moved into its new, state-of-the-art facility in the industrial park in Trochtelfingen-Steinhilben. "With the move, we are creating additional capacity for further growth, while expanding our engineering capacity and assembly space and adding a hands-on customer training experience with our own in-house training center."

Since 2003, the owner-managed family business has successfully developed and delivered customized equipment solutions for personnel, environmental and product protection, particularly for pharmaceutical and chemical applications. The focus is on containment solutions for the safe handling of highly active and highly potent substances. ART GmbH containment systems are used worldwide. **From the Swabian Alb into the world.**

More space for production and innovation

The new location provides more space for the development, manufacturing and testing of our systems, as well as for joint mock-ups and project meetings with customers.

Close customer collaboration

At the new location, ART is placing an even stronger focus on close customer collaboration. Integrated meeting areas enable direct interaction between engineering and hands-on application.

New in-house Training Camp for containment applications

An important part of the new location is the ART In-house Training Camp. Here, operators can receive hands-on training in the safe operation of personnel protection isolators - under realistic conditions and directly on the equipment.
